

On the Road to Independent Living Skills for Individuals with ASD

FREE

Thursday, November 29, 2012

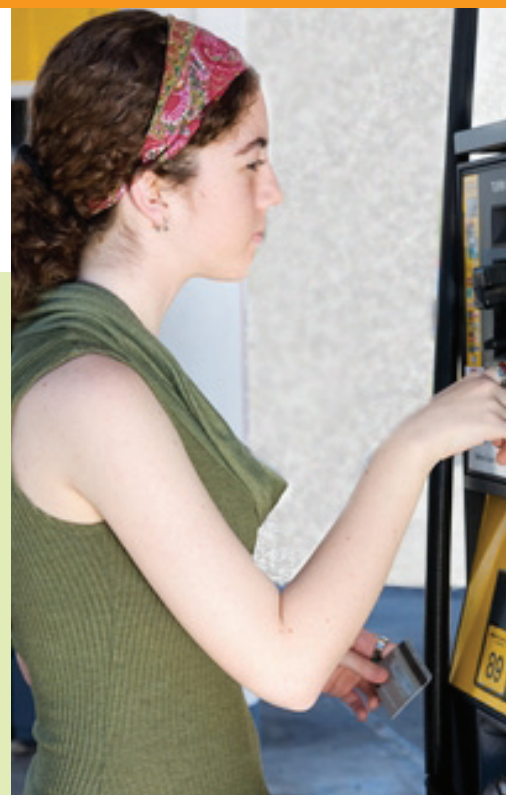

6:00 – 8:00 p.m.

Montefiore, Beachwood, Ohio (at I-271 & Cedar)

Navigating community settings such as a bank, grocery store, restaurant, and movie theater can pose real challenges for individuals on the spectrum. To address these needs, Montefiore is offering a unique program featuring **daily living skill therapies** in a **life-like setting**.

Rehab Road™, located on Montefiore's campus, provides a simulated community which is ideal for teaching teens and young adults daily living skills. Highly-qualified occupational therapists can tailor sessions to individual's strengths and needs.

But don't take our word for it. Come see for yourself!

Join us on October 30 for a tour of Rehab Road™!

- Check out at the grocery store, cash in at the ATM, or start a car on Rehab Road™. (Then imagine your teen or adult in the driver's seat.)
- Learn about services available at Montefiore for individuals with ASD ages 14 and up.
- Target Audience: Schools, individuals, families and medical providers

Register Today!

This event is free but registration is required.
