

# Your Your Home Way

A child moving away from home for the first time may create worry for parents. Will they be safe? Will they be successful?

**Date: Dec 8, 2013**  
**Beachwood Public Library**  
**Time: 1-3pm**

Parents of adults with Autism may worry even more. They often put off the time when their child is allowed to leave their care.

Come join us for an interactive workshop on how to create an affordable and sustainable independent home for your loved one through support, technology, and resources.

**Proudly  
Presented by**
