

Kitchen Connections

The KIDnections Group will be providing a 4-week long cooking class to children ages 8-12 with Autism Spectrum and with other related diagnoses. This class is perfect for the budding young chef. Participants will learn and practice valuable kitchen skills while sharing cooking experiences with their peers. As participants read and follow recipes, they will learn to gather, measure, and mix ingredients as well as learn about various kitchen tools and how to use them properly. Safety and sanitary skills in the kitchen will also be reviewed as participants work together to make delicious recipes. Participants will also be encouraged to use their creativity to make tasty individual “food creations.” Social skills and conversation will be naturally woven into this cooking experience. Both verbal and non-verbal communicators are encouraged to join; augmentative communication devices welcome. We hope to see you there!

Dates: Saturdays, July 12 – August 2, 2014
