

## Two+Individuals=Success

Two Foundation serves individuals 16 years of age and older who have mild to moderate exceptionalities that may limit their capacity to obtain or maintain a job. We exist to fill a gap in our society where our clients are left without appropriate jobs/careers upon completion of high school.

Two will provide support for our client and his/her family as we walk through the process of job training and job placement.

We will do our best to match your family member to a job that he/she will be successful at from a list of business partners Two has established. We will provide licensed Intervention Specialists to work with and prepare our clients in every way possible for their work placement. We will train an employee at the job site to be a job coach/peer buddy for consistent, ongoing support.

All applicants must attend an intake interview as part of the pre-screening process to ensure that our services match their needs. Applicants must have the ability to care for their personal hygiene independently, be self-med-icating and behave in a manner that is not dangerous to themselves or others.

**The Two Cafe and Boutique** will serve as the premier training and employment center for the Two Foundation. Our clients will receive real life work experience in a fully integrated setting.

## Two+Schools=Success

The Two Foundation will assist in meeting the IEP transition statement by providing an appropriate work experience for students (ages 16-22) with mild to moderate exceptionalities. We exist to bridge the gap between the school and the workplace. Our goal is to provide an avenue into the workplace for our students with as smooth a transition as possible.

Two will run summer training retreats that will cover "Skills to Pay the Bills", a curriculum put out by the State of Ohio by licensed Intervention Specialists.

Two will support the Employment First initiative put out by the State of Ohio to see that our students are fully integrated into the workplace just as our schools are striving for full integration.

## Two+Businesses=Success

Two Foundation benefits companies by providing pre-screened and mentored employees while training present employees to be a "buddy" (job coach), thus enriching the employee culture with coping and communication skills. Our workers are screened, mentored and supervised so that recruitment and training costs are reduced. In addition, this increases the labor force with qualified and sometimes hidden talent.

With Two Foundation as your staffing source, you can assist people with barriers to employment while still fulfilling your business objectives.

**Summer Retreat/Camp**  
Two Foundation provides a summer job training day camp. Attendees will have a peer buddy/friend and experience job training seminars, hands-on job training activities, social activities, personal hygiene lessons, daily living and other skills (time management, budgeting, food management, interpersonal relations). There are social events throughout the camp. We have the ability to work on IEP goals to decrease the impact of time off from school.
